HOW TO READ THIS EVENT MATRIX

Looking at the large chart to the left, find all event entry limitations at the bottom of each column. All "individual" events will have a number stating the number of individual students from your chapter that are eligible to enter that specific event. Any event that has a "T" listed is a "team" event and you must move to the smaller chart above in order to see the number of team entries your chapter may enter.

Place an "X" in each box to signify that a student or team is registering for an event. Use this form when using iService to register online for the Regional Conference.

Q = Must qualify at Regional Conference in order to participate at State Conference

T = Team Event (see entry limits above)

Y = Students will have to perform some task onsite at the Conference. This may be an interview, performance, presentation, speech, etc.
